

Kody Cook

Property Manager, Leasing & Sales

Testimonials

“Since 2006, Kody has been primarily responsible for the management of four retail and office properties on our behalf. During this time, some of these properties have undergone significant refurbishment which is unavoidably disrupting to tenants and neighboring properties, but at all times Kody managed the progress of leasing, relocations, and general property management without issue, and even provided regular photographic updates sent by email to ensure we were fully informed. Kody manages our properties as if they were his own, acting at all times in an efficient, capable and highly professional manner with tenants, neighboring properties, service providers and local authorities.

His attention to detail is outstanding; he is available at all times to consult, and all matters are followed through to completion without exception. Each time we visit any of our properties, as I walk through I am proud to be the owner of a property which is maintained to the highest standard possible, and comprises quality tenants who have been carefully selected and with whom Kody maintains excellent relationships. We enjoy working with Kody and the Bayliss & Samra team and have no hesitation in placing all our commercial real estate needs in their hands”.
